

## CONFERENCE PROCEEDINGS CONTENTS

### SECTION OIL AND GAS EXPLORATION

---

- 1. EFFECT OF THREE DIFFERENT METAL POWDERS ON THE PHASE BEHAVIOR OF CH<sub>4</sub> AND CO<sub>2</sub> HYDRATES: FESI<sub>3</sub>, INCONEL 718 AND CUSN<sub>12</sub>, Dr. Yan Li, Dr. Alberto Maria Gambelli, Prof. Federico Rossi.....3**
- 2. IDENTIFYING BEST AVAILABLE TECHNIQUES FOR THE RUSSIAN OIL AND GAS EXTRACTION INSTALLATIONS, Yuliya Ukhina, Olga Ezhova, PhD Natalya Popadko.....11**
- 3. PROMOTING RECYCLING, CLEANER PRODUCTION AND GREEN INVESTMENTS IN PETROCHEMICAL INDUSTRY, Assoc. Prof. Dr. Yana Molchanova, Prof. Dr. Sci. Alexander Malkov .....19**
- 4. SETS OF RAILWAY WAGONS WITH DANGEROUS SUBSTANCES IN STATIONS AS A SOURCE OF RISK, Peter Hrmel .....27**
- 5. THE EFFECT OF FeSi<sub>3</sub> PARTICLES ON METHANE AND CARBON DIOXIDE HYDRATES: EXPERIMENTAL EVIDENCES AND COMPARISON WITH THE CURRENT THEORY, Dr. Alberto Maria Gambelli, Assoc. Prof. Dr. Andrea Di Schino, Prof. Dr. Federico Rossi ..... 35**

### SECTION HYDROLOGY AND WATER RESOURCES

---

- 6. ADAPTIVE REACTIONS TO CLIMATE CHANGE BY IMPLEMENTATION OF BLUE-GREEN INFRASTRUCTURE IN A SET OF URBAN ZONES IN CENTRAL EUROPE, Andrea Raczkova, Jaroslav Hrudka, Reka Wittmanova, Ivona Skultetyova.....51**
- 7. AN EXPLORATION OF POLARIMETRIC AND COHERENCE INFORMATION OF SINGLE LOOK COMPLEX DUAL-POL SENTINEL-1 SAR DATA FOR FLOOD MAPPING IN RURAL LANDSCAPE, Nguyen Vu Giang, Vu Kim Chi, Bruno Verbist, Ben Somers .....59**
- 8. ANALYSIS OF THE DEVELOPMENT OF SELECTED COMPONENTS OF SEPARATED MUNICIPAL WASTE IN A SELECTED LOCALITY IN SLOVAKIA, Ing. Gergely Rozsa, Ing. Ivana Marko, PhD Andrea Raczkova, Prof. Ivona Skultetyova.....69**
- 9. ANALYSIS OF THE EFFICIENCY OF THE CSO CHAMBER AT EXTREME WASTEWATER FLOW, PhD Ing. Jaroslav Hrudka, Ing. Andrea Raczkova, Ing. Marek Sutus, Prof. PhD Ing. Stefan Stanko .....77**

|                                                                                                                                                                                                                                                                            |     |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| <b>10. APPLICATION OF MULTI-CRITERIA EVALUATION TO INVESTIGATE THE POTENTIAL OF THE COMBINED VOLGA ENERGY CASCADE,</b> Assoc. Prof. Dr. Alexander Ivanov, Prof. Dr. Rodney Stevens, Assist. Prof. Dr. Carlos Duque, Dr. Onwusameka Ogbowuokara.....                        | 85  |
| <b>11. ASSESMENT OF THE COMBINED SEWER OVERFLOW IN THE CITY OF TRNAVA USING CFD MODELING,</b> Ing. Marek Sutus, PhD Ing. Reka Wittmanova, Ing. Gergely Rozsa, Prof. PhD Ing. Stefan Stanko.....                                                                            | 95  |
| <b>12. BIOLOGICAL PRETREATMENT OF WASTEWATER ENTERING IN GLINA-BUCHAREST TREATMENT PLANT, A PROBLEM STILL TO BE SOLVED,</b> Master Eng. Bogdan Alexandru Radulescu .....                                                                                                   | 101 |
| <b>13. GEOMODELS OF THE SPREAD OF SOIL AND SURFACE WATER POLLUTION BY GEOGRAPHIC INFORMATION SYSTEMS AND REMOTE SENSING OF THE EARTH,</b> Prof. Oleksandr Trofymchuk .....                                                                                                 | 109 |
| <b>14. GEOPHYSICS AND MACHINE LEARNING BASED SURVEYING OF GROUNDWATER POLLUTION: A CASE STUDY OF SOUTHERN ACIDIC TAR LAGOON, INČUKALNS, LATVIA,</b> M.Sc. Viesturs Zandersons, M.Sc. Jurijs Jeskins, Dr. Janis Karušs, Dr. Kristaps Lamsters, M.Sc. Dmitrijs Porsnovs..... | 115 |
| <b>15. GYPSUM KARST INVESTIGATION USING ELECTRICAL RESISTIVITY TOMOGRAPHY: CASE STUDY FROM ALLAZI, LATVIA,</b> Peteris Dzerins, Janis Karuss, Viesturs Zandersons .....                                                                                                    | 123 |
| <b>16. IMPACT OF AIR QUALITY ON THE QUALITY OF SURFACE RUNOFF CAPTURED FROM ROADS IN URBAN ENVIRONMENTS,</b> PhD Ing. Ivana Marko, Ing. Gergely Rozsa, PhD Ing. Jaroslav Hrudka, Prof. PhD Ing. Stefan Stanko .....                                                        | 131 |
| <b>17. INFLUENCE OF CLIMATE AND LAND USE CHANGES ON THE WATER RESOURCE OF MISSOUR OASIS, MOROCCO,</b> Ali Salem, Mustapha Amiri, Mohamed Ghzal, Jozsef Dezso .....                                                                                                         | 141 |
| <b>18. METHODOLOGY OF MODELING THE DETECTION OF LIMESCALE DEPOSITS IN SANITARY INSTALLATIONS,</b> Adrian Czajkowski, Leszek Remiorz, Sebastian Pawlak, Eryk Remiorz, Jakub Szyguła.....                                                                                    | 151 |
| <b>19. MODELLING OF THE ALGAL BLOOMS AND ENERGY PRODUCTION IN THE VOLGA RESERVOIRS,</b> Ivan Krayev, Sayad Guseinova, Maria Ivanova.....                                                                                                                                   | 159 |
| <b>20. QUANTITY AND QUALITY OF WATER RESOURCES OF THE SOUTHWESTERN CRIMEA,</b> Assoc. Prof. PhD Elena Filimonova, PhD Evgenii Kortunov, Vsevolod Samarsev, Prof. Dr. Sc. Natalia Kharitonova, Prof. Dr. Sc. Sergey Pozdniakov .....                                        | 167 |

|                                                                                                                                                                                                                                                  |     |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| <b>21. REMOTE ASSESSMENT OF SUSTAINABLE GROUNDWATER RESOURCES USING KAREZES (QANATS), NORTH OF KANDAHAR, AFGHANISTAN</b> , Prof. Dr. Rodney Stevens, Carlos Duque, Abdul Karim, Abdul Hassan Lashkaryee, Laila Zareef.....                       | 175 |
| <b>22. SEWER NETWORK EVALUATION USING DYNAMIC MODELING IN MIKE URBAN</b> , PhD Ing. Reka Wittmanova, Ing. Marek Sutus, PhD Ing. Ivana Marko, Prof. PhD Ivona Skultetyova,.....                                                                   | 185 |
| <b>23. INFLUENCE OF WATER LOSSES FROM THE WATER SUPPLY SYSTEM IN BIG ROMANIAN CITIES</b> , Prof. Dr. Victorita Radulescu .....                                                                                                                   | 193 |
| <b>24. THE LAND USE AND CLIMATE CHANGE IMPACT ON LAKE USMA HYDROLOGICAL REGIME</b> , Mg. Geogr. Anda Bakute, Assist. Prof. Inga Grinfelde, Mg. sc. ing. Jovita Pilecka-Ulcugaceva, Bc.sc.ing. Sindija Liepa, Bc.sc.ing. Kristaps Siltumens ..... | 201 |
| <b>25. USE OF HYDROACOUSTIC METHODS AND REMOTE SENSING DATA FOR LAKE MONITORING</b> , PhD. Natalia Sheviakina, PhD. Ihor Radchuk, PhD. Olha Tomchenko, PhD. Snizhana Zagorodnia .....                                                            | 209 |

## **SECTION FOREST ECOSYSTEMS**

---

|                                                                                                                                                                                                                                   |     |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| <b>26. BIRD DIVERSITY IN URBAN PARKS DEPENDS ON PRESENCE OF VERY LARGE TREES</b> , Prof. Ing. Ivo Machar .....                                                                                                                    | 219 |
| <b>27. CASE STUDY OF RIPARIAN VEGETATION AFFECTING WATER QUALITY OF SMALL STREAMS IN LATVIA</b> , PhD Marcis Saklaurs, Stefanija Dubra, Assoc. Prof. Dr. Liga Liepa .....                                                         | 225 |
| <b>28. ENVIRONMENTAL RISKS IN CRISIS MANAGEMENT BY NUCLEAR ACCIDENTS</b> , Prof. Lucia Kurilovska, Prof. Jana Mullerova .....                                                                                                     | 233 |
| <b>29. FLOOD AND SUDDEN FLOOD RISK IN FOREST AREAS</b> , Prof. Jana Mullerova .....                                                                                                                                               | 239 |
| <b>30. PRELIMIARY DATA ON THE FIRST YEAR OF FIRST HUNGARIAN MIYAWAKI-FOREST IN TABÁN, BUDAPEST</b> , PhD Veronika Szabo, Balazs Zsolnai, Zoltan Bajor.....                                                                        | 247 |
| <b>31. SOIL CHARACTERISTICS IN NUTRIENT RICH SCOTS PINE (PINUS SYLVESTRIS L.) STANDS IN TERVETE NATURE PARK IN LATVIA</b> , Assist. Prof. Dr. Aigars Indriksons, Prof. Dr. Inga Straupe, Mg. Ieva Erdberga, Bc. Anna Duvina ..... | 255 |

|                                                                                                                                                                                                                                                                                                           |     |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| <b>32. SPECIALLY PROTECTED NATURAL AREAS FOREST ECOSYSTEMS MONITORING (ON THE EXAMPLE OF THE LOSINY OSTROV NATIONAL PARK, MYTISHCHI, MOSCOW REGION, RF),</b> Assoc. Prof. Dr. Roman Alekseev, Assoc. Prof. Dr. Vladimir Bruz, Assoc. Prof. Dr. Sergei Vititnev, Assoc. Prof. Dr. Nataliya Kozyakova ..... | 263 |
| <b>33. STUDY OF DYNAMICS FOR SPECTRAL INDICATORS OF VEGETATION AND WETLAND ECOSYSTEMS HUMIDITY,</b> Prof. Oleksandr Trofymchuk, PhD Viktoriia Klymenko, PhD Snizhana Zagorodnia, PhD. Natalia Sheviakina, PhD Vyacheslav Vishnyakov .....                                                                 | 271 |
